CRETE Project Welcomes Society 4.0

Speaker: Dr. Evangelia Triantafyllou

Presentation's Title: The Flipped Classroom Combined with game-based learning:

Abstract:

In this talk, I will introduce the flipped classroom instructional approach and its pedagogical underpinnings. Then, I will present the principles of Game-Based Learning (GBL) and how GBL and the flipped classroom can be combined for engaging students both in online and offline learning environments. Part of this presentation is based on the results of the FLIP2G Erasmus+ Knowledge Alliance (https://flip2g-project.eu/). .
